

# Dimmable LED lighting for MR rooms

This IMEDCO LED lighting has been especially developed for MR rooms. In addition to significant power saving, LED lamps have an operational life approximately twenty times longer than conventional lamps.

## Features

- ☑ Substantial less power consumption than standard light bulbs
- ☑ Switched or dimmable
- ☑ Quick and easy installation
- ☑ Less maintenance due to the longer lifetime of LED's
- ☑ Rated bulb life approx. 25'000 hours
- ☑ Low operating temperature means less influence on ambient temperature
- ☑ 12 Volt power supply included
- ☑ Tested & approved in MRI suites
