

CERTIFICATE
No. 0955-QSW-65/1362

The accredited product certification body gbd Zert GmbH attests that this certificate is valid for the following field of application:

General Steel and Machine Construction
metallic materials
default quality requirements for fusion welding

in the company

Imedco AG
Industriestr. West 14
CH-4614 Högendorf

and manufactured in the factory

Imedco AG
Industriestr. West 14
CH-4614 Högendorf

This certificate attests that the quality requirements for the fusion welding of metallic materials in compliance with

EN ISO 3834-3:2005

are fulfilled. The company possesses a quality assurance system, operating equipment, qualified personnel and joining procedures which ensure the manufacture and testing of welded products.

This certificate was first issued on 2017-01-17 and remains valid as long as the requirements in the above stated standard, the scope described in the annex and the details of the verification do not change.
